

Due to increased enforcement by existing DEA laws...**IT IS IMPORTANT TO NOTE THE FOLLOWING:**

E Box and Pyxis supplies are **for FIRST DOSE EMERGENCY USE ONLY**. The DEA has made it clear that failing to place a reorder or failing to obtain a signed prescription from a physician does not constitute an emergency.

- You **CANNOT** remove first dose controlled substances for "emergency use" from the E-Box or Pyxis without a valid prescription.

- You **MUST VERIFY** with the Pharmacy that a legally signed prescription from the attending physician is on file.

- The drugs in the emergency supply are the property of Skilled Care until legally dispensed.

- Removal of controlled substances without a legal prescription is considered **THEFT** and therefore subject to full penalty of the law.

Please comply...This is a ZERO TOLERANCE policy.
