

Larry,

I just read the article Andrea wrote about Skilled Care Pharmacy after her interview with you. I am preparing a special awards supplement for the Business Courier and I just had to take a second to tell you how impressive your organization is! I have been dealing with elderly in-laws for the past 15 years and to hear about a company like yours with your philosophy is so refreshing! It's nice to know there are people who care out there. Keep up the good work!
