

# STEWART HOME SCHOOL

ESTABLISHED 1893

J. BARRY BANKER  
MANAGER

September 22, 2009

To Whom It May Concern:

As a family owned business, Stewart Home School relishes doing business with other family businesses. Skilled Care Pharmacy, Larry Galluzzo, and all of their staff confirm the reasons why. As a residential school and home for 375 intellectually disabled students, we have utilized the services of Skilled Care for over 7 years. From the personal and on site interest of Larry to the detailed concern about our students' medicine needs by their pharmacists, Skilled Care has set the bar with respect to "partnering" with a vendor. Our unique problems and issues are "owned" by them on a daily basis. Mary Ann, our Customer Care Account Manager, has been there from day one and is integrally involved with everything that goes on with every student. She is an outstanding liaison between our needs and Skilled Care's services.

In summary, I would recommend Skilled Care to any facility. Their family business culture, attention to detail, and professionalism throughout their workforce are rare components found together in business today. We are grateful for their services and appreciate their values.

Sincerely,

J. Barry Banker  
Manager
